The Nerval 3838 Hinge series are great for heavier doors as they hold majority of the weight on the bottom. They can hold a maximum door with of 36" and are adaptable to a header system as well. All frameless shower door products have been designed and developed to meet industry norms and safety requirements. However, before installing make sure your enclosure adheres to listed guidelines on glass weight and size restrictions. Consult local building code prior to installation and always use safety glass.
