

NERVAL CORPORATION Care & Maintenance documents provide guidelines on how to care for your NERVAL product. Failure to comply with NERVAL's Care & Maintenance documents voids the product warranty.

- The safest way to clean your artwork is by dusting it with a soft, dry cloth. Avoid using harsh chemicals or abrasive cleaning tools.
- For framed artwork with glass faces, if using a commercial glass cleaner, ensure it is ammonia-free and gentle on surfaces.
- Never spray any cleaner directly onto the artwork, including glass faces. Always spray onto a soft cloth and then wipe gently.
- Use soft, non-abrasive cloths to clean frames and glass surfaces to prevent scratching or damage.
- For canvas pieces, use only a lightly dampened cloth with water if necessary, but ensure minimal moisture contact with the canvas itself.
- Be mindful to keep artwork away from direct sunlight, high humidity, and extreme temperatures, which can affect the longevity and vibrancy of the materials.
