

## Closet Doors

**NERVAL CORPORATION** Care & Maintenance documents provide guidelines on how to care for your NERVAL product. Failure to comply with NERVAL's Care & Maintenance documents voids product warranty.

### *Closet Doors*

NERVAL closet doors have few moving parts, and as a result are easy to maintain. For instructions on how to clean and maintain the mirrors on the doors, please refer to the Nerval Care & Maintenance instructions for Mirrors. To maintain your sliding closet door, be sure to:

- Keep the bottom track clean. Do not use abrasive cleaners, as these may damage the finish. Common household cleaners are adequate.
- If the door comes off the track, please refer to the installation manual. Contact your Nerval representative if you do not have access to a copy of the manual.
- If the door is not flush, simply using a #2 Philips screwdriver will adjust the top brackets to bring the door into plumb.

Please feel free to contact your Nerval representative if you have questions or concerns.
