

Mirrors & Glass

NERVAL CORPORATION Care & Maintenance documents provide guidelines on how to care for your NERVAL product. Failure to comply with NERVAL's Care & Maintenance documents voids product warranty.

- The best and safest cleaner for a mirror is clean, warm water used with a soft cloth. Be careful not to allow the edges of the mirror to get or remain wet over
- If using a commercial glass or mirror cleaner, be sure to use a standard brand of glass or mirror cleaner that does not contain ammonia.
- Never spray any cleaner directly on to a mirror. Instead apply the cleaner to a soft cloth and then wipe the mirror.
- Always use soft, grit-free cloths when cleaning a mirror to reduce chances of scratching the surface.
- Be sure to dry all joints and edges thoroughly to be certain no commercial cleaner comes in contact with the edge and backing.
